TO CREATE A SUPPORTIVE SPACE WHERE MOTHERS AND BABIES CAN MOVE, CONNECT AND GROW TOGETHER.

Alexia's vision is to make movement part of the journey through motherhood, from pregnancy to the first stages of a baby's development , creating a community where both mother and baby feel supported.

VISION

TO SUPPORT MOTHERS THROUGH MOVEMENT, CONNECTION AND KNOWLEDGE.

Through prenatal and postnatal yoga, Alexia creates welcoming spaces where mothers can reconnect with their bodies, build confidence and share the experience of motherhood with others.

Her work with babies combines movement, play and developmental awareness to encourage natural physical development while strengthening the bond between mother and child.

MISSION

COMMUNICATION STYLE

The communication style is designed to be warm, reassuring and knowledgeable.

The brand speaks to mothers as people first, acknowledging that pregnancy and early motherhood can be exciting, overwhelming, joyful and full of change. Language should feel encouraging rather than instructive, creating a sense of trust, belonging and reassurance. Communication is simple and accessible, avoiding unnecessary medical or technical language while maintaining the expertise behind Alexia's work

INSPIRED BY A FEELING OF CONNECTION

The starting point for the logo was a mid-century African wooden sculpture that deeply resonated with Alexia. Its simple, organic form and the tenderness expressed between the figures immediately spoke to her and captured something she wanted the brand to embody: warmth, motherhood, connection and love.

Taking this emotional reference as a starting point, the logo was developed into a simple, contemporary line drawing representing the relationship between a mother and her baby.

The two forms remain distinct, yet are connected through a continuous, flowing gesture — reflecting the bond between mother and child and the idea of movement that sits at the heart of Alexia's practice.

The simplicity of the mark allows it to feel elegant, warm and human, while leaving room for personal interpretation.

PRIMARY COLOUR– PREFERRED USE

The logo should remain simple, calm and clearly visible across every application. The primary logo is designed to work across the brand's core colour palette, allowing it to adapt to different backgrounds while maintaining its recognisable shape. When placing the logo over colour or imagery, always ensure sufficient contrast between the mark and its background.

REVERSED COLOUR– FOR DARK SATURATED BACKGROUNDS

The use of safety space around the logo ensures that it remains clear, legible, and visually impactful in all applications. By protecting the logo from surrounding elements, this spacing reinforces its presence and prevents visual clutter.

SAFETY SPACE

The logo has been developed as a flexible system, rather than a single fixed mark. This approach ensures clarity, consistency, and recognizability across a wide range of formats, platforms, and applications. Each logo version serves a specific purpose, allowing the brand to remain strong and legible in any context while preserving its core identity.

PRIMARY LOGO

The primary logo is the preferred and most recognizable expression of the brand.

- Brand-led communications
- Website headers
- Print materials
- Key marketing assets

STACKED HORIZONTAL

Designed for horizontal designs where the tall and narrow logo don't fit the space.

- Horizontal layouts

ALTERNATIVE

A compact arrangement designed for vertical or more contained formats.

- Secondary Placements
- photography overlays
- Decorative moments

ICON

The icon version breaks the logo down to its most recognizable elements.

- Favicons
- Small scale applications

LOGO USAGE

LOGO WITH TAGLINE

The tagline version communicates Alexia's areas of expertise when additional context is useful. It should be used where the audience may encounter the brand for the first time or where the nature of the service needs to be immediately understood.

- Website
- Business cards
- Marketing Materials

BADGE

The badge creates a more compact and recognisable expression of the brand. It can be used as a supporting graphic element when the full logo is unnecessary.

- Merch
- Stickers

LOGO USAGE

Don't change the scale of the elements.

Don't change the spacing between the elements.

Don't use the logotype on its own.

Alexia
Granato

Don't alter the position of the elements.

Alexia
Granato

Don't rotate logo for vertical use

Don't use low contrast logo

Prenatal Yoga • Postnatal Mom & Baby Yoga • Development

The Alexia Granato palette balances warmth, calm and natural energy.

Soft, nurturing tones create a sense of safety and openness, while deeper and more vibrant colours bring confidence and energy to the identity.

The palette is intentionally flexible, allowing the brand to move between quiet, intimate moments and more energetic expressions of movement and community.

POPPINS

Body

Poppins is used for body text to provide readability, balance, and a more approachable tone. It maintains high legibility at smaller sizes, ensuring accessibility across different formats and platforms. Its consistent rhythm and spacing allow content to flow naturally, supporting ease of reading without distraction.

By using Poppins for supporting content, the brand introduces warmth and approachability while allowing Inter to maintain structure and emphasis.
